Horicon Marsh Explorium-Free admission

Visitors have a unique opportunity to travel through time as they explore some of the exciting new features on display at the Horicon Marsh Education and Visitor Center in Horicon, WI. Long before Horicon Marsh achieved international status as an important bird and wildlife area and a destination for outdoor recreation, glaciers carved a basin where a wetland would one day form.

Horicon Marsh

Friends of the Horicon Marsh Education and Visitor Center encourages and facilitates the connection between people and the Horicon Marsh. This is achieved through education and by fostering personal experiences in traditional outdoor activities within the marsh. Significant emphasis is placed on conserving and enhancing the value of the marsh's resources. Mission objectives are achieved through collaboration, financial support and volunteer assistance to the Wisconsin Department of Natural Resources. *Bring your binoculars and field guides and be sure to take some time to bird at Horicon Marsh, regarded as one of the greatest birding spots in the world!*
