

Taking wildlife
education one step
further. In the air
and on the ground

BANDING HOLDS A WHOLE NEW APPROACH TO WILDLIFE REHAB.

It makes a difference on who is holding the bird.

We started back in 2005 with project Osprey. Shiocton 4H club.

The people that make this possible. Our climber, Bob Welch and We Energies

Problems at the top. Wire in the nest. Female on ground, young dead in the nest.

Predation on the nest' Young bird caught in wire below the nest.

American transmission gives us these platforms and We Energies puts them up for us.

Jim Ziegler, our vet releasing an osprey.
Beka Weiss my go to person for advise.

Landowners monitor daily for us.
Ginny does education on the ground.

One special osprey banded July 2016, F22
sighted in Florida October 2016, making
the journey

Jayne Close is our kestrel person.
He does the work I take photos

They are sexed and weighed and checked to any problems.

Banding eagles.
We Energies does the honors here.

Release day

Don puts up an immature on the Wi river.
